XIth Sky and Space: Meeting.

More than one hundred and fifty speakers will, during these days, share with their passion, their discovery, their results.

7 parallel rooms, permanent animations, planetarium sessions, booths.

To follow a part of, in the mag of November.

The magazine in October will be exceptionally available next week in same time of the issue August - September and dedicated to Stars.

it is sometimes very funny to study Astronomy =)

Both will be exceptionally made in two copies detached so delivered solo from October + in pack from November.

By the way, pack of all or some issues are available too, on demand.

This event is sponsored by Airbus, the indisputable driving force behind Europe's space achievements, and supported by the Ministry of Higher Education, Research and Innovation, and co-organized by AFA and Universcience.

Airbus Defense and Space, one of the two divisions of Airbus, is the European leader in the space industry and defense

It is one of the world leaders in the space industry and one of the top ten defense companies in the world.
