

The lunar environment. Update 5

When little stickers are just 21 pages of data :D

I am really happy by this [update](#) + because of the development of my project.

This is a page from the baby mag to put-on, a picture (of the moon)

-> it's more understandable, by reading the content.

Or, a pic (something or, someone) may be putting-on.

I like to personalize a mag , it's perhaps the same for someone else..

I will share more about it.

Yeah the mag is, this time, written by parts on white pages for the first time !
It's pretty :)

Cover-back pages are okay and I just need to end the layout.

I will give more on the mag-content.
