

MAGIC SPELL

Under paradoxes therefore, otherwise written: being in a super complicated times, accessible things then take on another dimension and I try to combine my efforts and resources to have a little work comfort that includes a place for creativity.

In the coming months, part of my project that had, for two years, disappeared, will be developed further.

Drawings, stickers, special magazines-stuffs and more are in progress..

Postal card up thanks to my English class.

The plan this week is to send a postcard in English to someone.
(I don't send a fainting spell but a DIY postcard)

Visuals of first postal arts.
