

## Mind

It wasn't easy to search out how to transmit all the data in a **fun** way

1) for the ongoing mag

2) for a research-results = put in place a **method** and find the **pedagogical supports** so, I got on my 2009 steps from a myspace project :) to get to an **educational** point, on today, and I'm really super filled with it <3

Magazine's **project** is rather an entry into the subjective counterpart of the space of physical objects.

(2008) 2009 As a first research + visual-format.

Steps on: Childhood + Teenage + 2009 + 2014 + 2015 + 2017 + 2018 + 2019 + 2021
