

## **MIND**

Friday, November 12, 2021

**Today I had a meeting with an extremely powerful lawyer in Paris.**

**I hadn't asked for it.**

**We have reviewed my file.**

**There were two conclusions.**

**One of them being the equivalence of Belgium and France regarding the intolerance of the recognition of non-standard capacities.**

**She established the legal terms for that and made it clear to me.**

**That is to say: If you make a course according to your capacities of adaptation and development, it will never be considered and no door or help will be opened in these two countries.**

**It is only possible to find capacity assessments, and, to find welcome elsewhere.**

**This lawyer was very, very concerned, very powerful, very clear, very sorry too.**

**But as she said: I managed to stay in the face of justice, upright and able to defend myself.**

**This allows training (not recognized) but very present skills.**

Nothing will have been recognized in France, despite all the work, (for now) and that has caused fractures.

I learned about the powers of Belgium (decision-making groups) and how these two countries equalize people, bar none.

I had a **VISA O** in progress to go to the USA

(type of visa established by my lawyer in Miami) and I was never able to obtain it because of my embassy which did not give me my passports !!!

I paid my lawyer and the procedure is held on hold. Today I learned the why.

So I asked to sever all ties with this **country**

I also learned why several structures in France were so special.

Now my file has practically found a way out of all these things.

A solution will be proposed by the Parisian justice.

I don't know the exact date. But it's soon.

I had a really serious thing but I am realistic.

This is judged in Paris. And, it's not nothing.

I am reassured to have held on so much.
