

**JUN 27, 2020**

**Update. Video, Layout on progress and the tie-dyed cover plus back (2 to choose)**

This time is a different version and some workshops compositions:

+ In the mag only (which means no in my webspaces)

Workshops using material Or data very interesting, amazing knowledge and their results!

It's part of my research to participate to The Office of Astronomy for Development (OAD) program.

In this one, it's first data about a NASA material what will be very amazing to know the possibilities in many ways!

The material comes with the mag.

**There are the cover, back plus mini poster (in the mag, so you can cut)**

I start the process on photographs, and videos writings based on the cosmos, light and electrons on their terrestrial uses.

Data comes in part from multi-disciplinary open access archive for the deposit

and dissemination of scientific research documents, whether they are published or not.

The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.
