Mini posters + données pour la deco-space:) ou pour étudier, up, dans le magazine.

Deux magazines sont en progression: N_42+43 & N_44+45

- English

Using data from a moment in the sky: nothing visible

(I did not take the sample in Paris)

Since I took the time to make a sample to add it to the Cloud-challenge, I was able to organize according to air pollution.

Excellent Correct Mauvais Risque de santé Risque marqué de santé Dangeureux

Lots of sampling has been done (since 2019)(not just clouds).

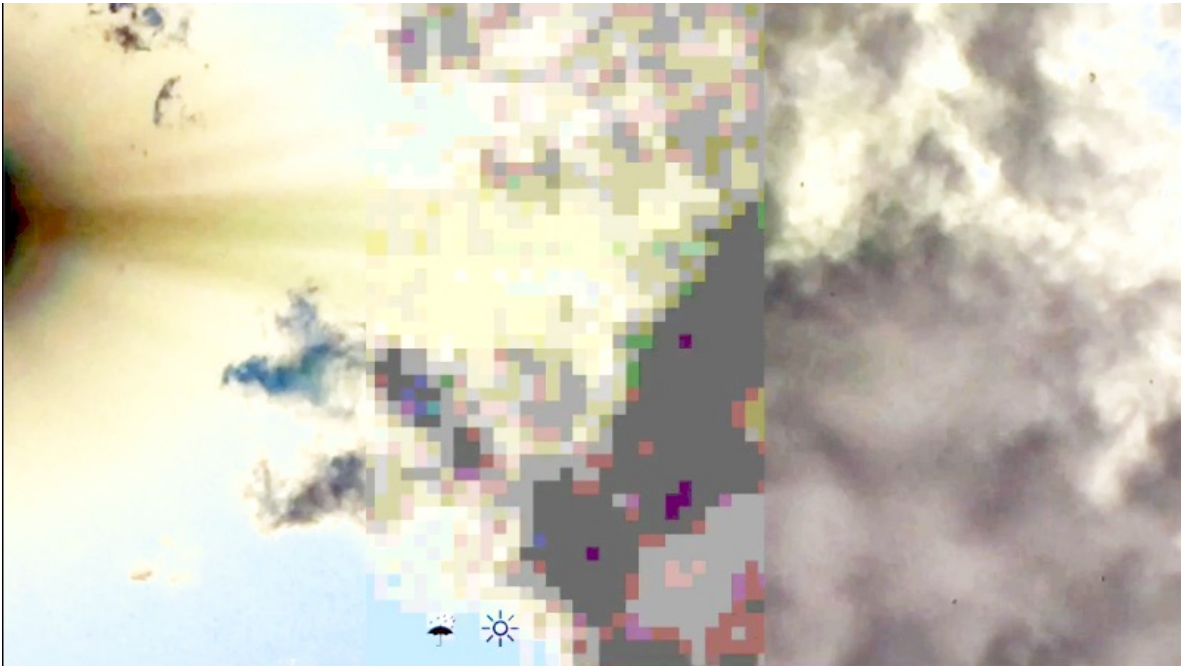

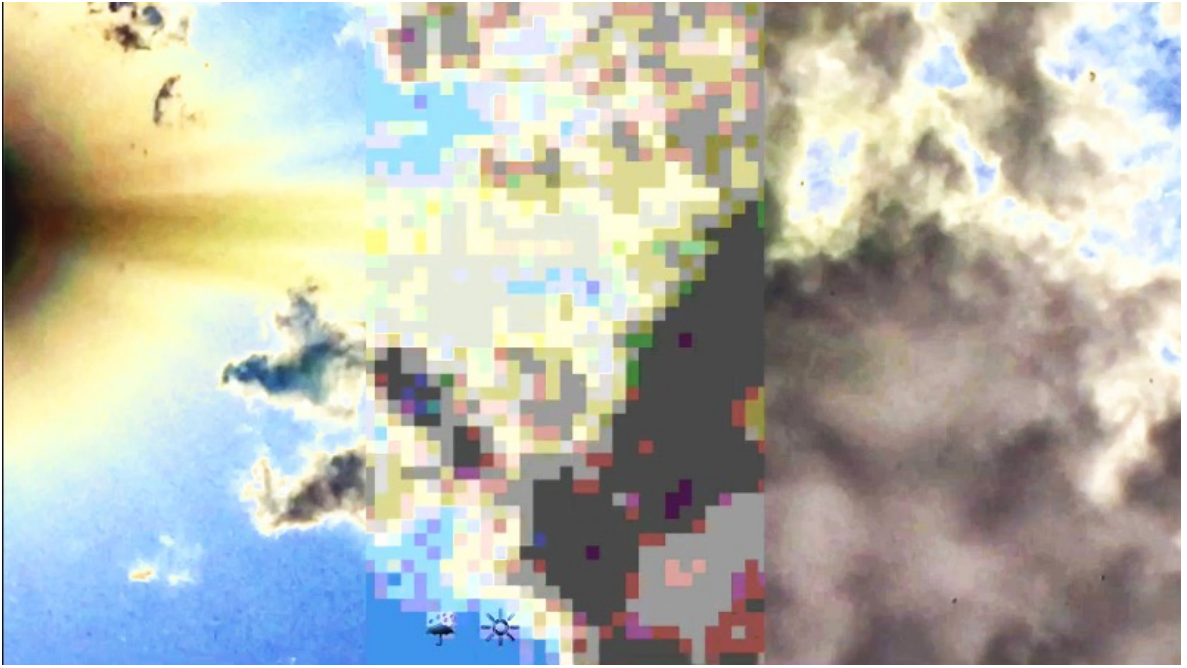

The last ones will be visible in a few days to show the reactions.

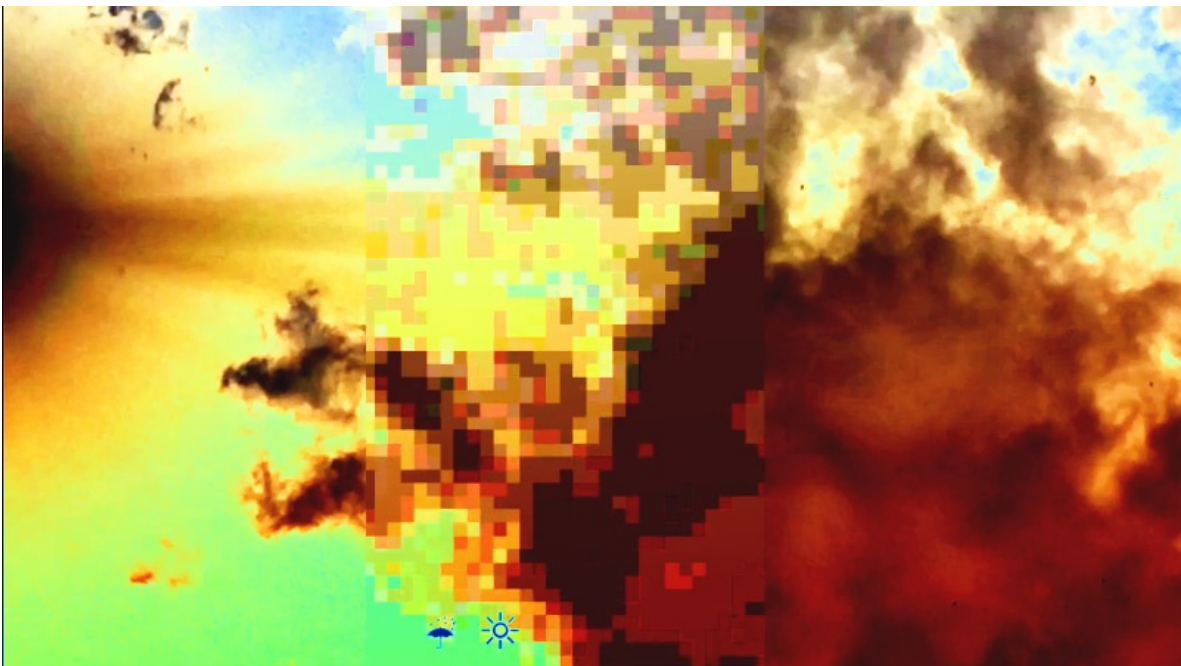

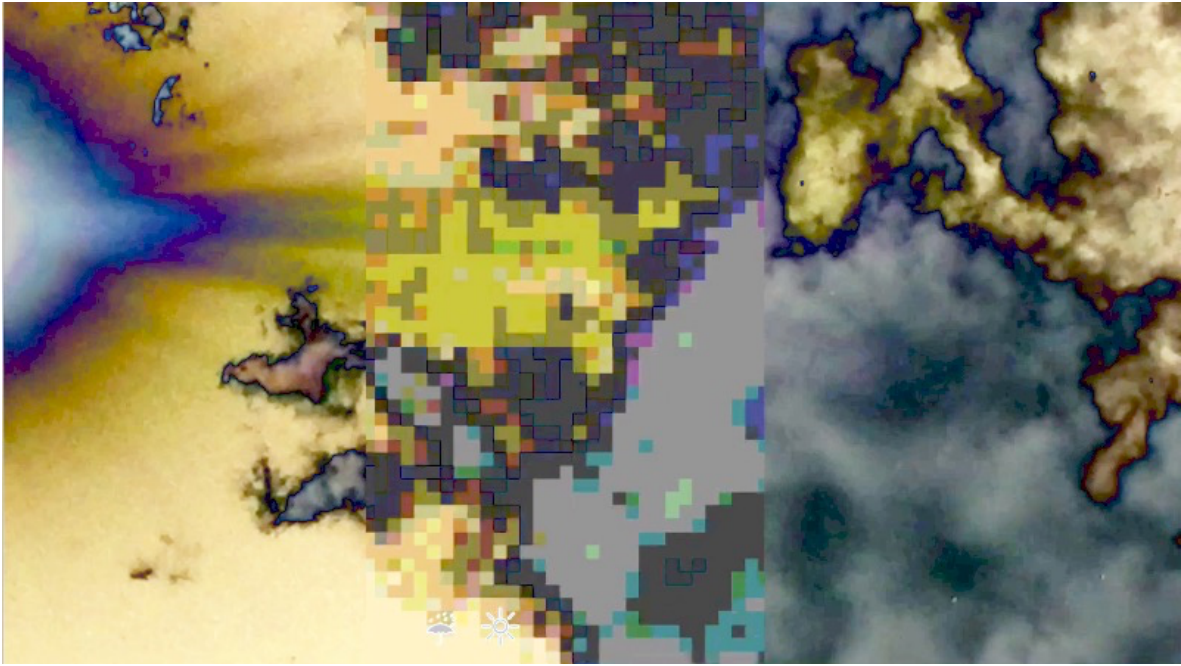

Mini posters + data for the deco-space :) or studying, up, in the magazine.

Sample Observation (July 2021)

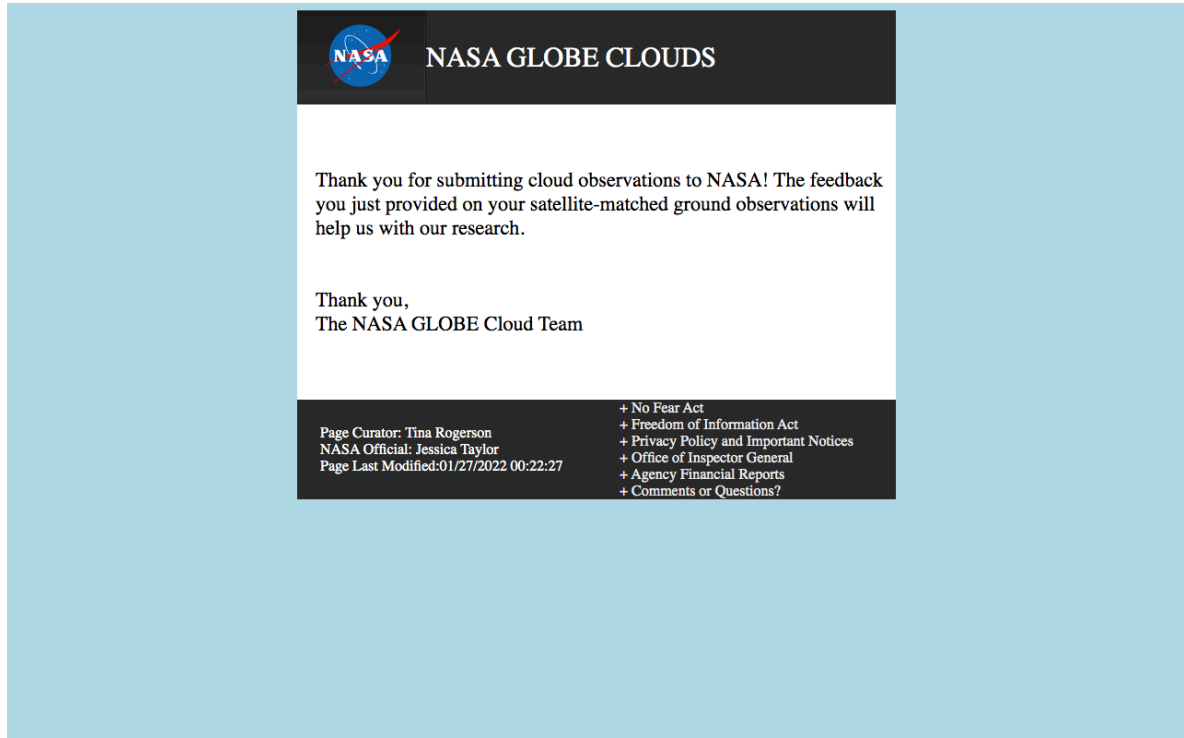

Two magazines are in progress: N_42+43 & N_44+45

The screenshot shows a NASA GLOBE CLOUDS thank you message. At the top left is the NASA logo. To its right, the text "NASA GLOBE CLOUDS" is displayed. The main body of the message reads: "Thank you for submitting cloud observations to NASA! The feedback you just provided on your satellite-matched ground observations will help us with our research." Below this, it says "Thank you, The NASA GLOBE Cloud Team". At the bottom, there is a footer with two columns of text. The left column contains: "Page Curator: Tina Rogerson", "NASA Official: Jessica Taylor", and "Page Last Modified:01/27/2022 00:22:27". The right column contains a list of links: "+ No Fear Act", "+ Freedom of Information Act", "+ Privacy Policy and Important Notices", "+ Office of Inspector General", "+ Agency Financial Reports", and "+ Comments or Questions?".
