

**In dream. As if!**

**A writing system is a method of visually representing verbal communication, based on a script and a set of rules regulating its use.**

**While both writing and speech are useful in conveying messages, writing differs in also being a reliable form of information storage and transfer.**

**The process of encoding and decoding writing systems involves a shared understanding among writers and readers as to the meaning of the set of symbols or characters used to write.**

**Handwriting is generally drawn on durable media, such as paper or electronic devices, although non-durable methods can also be used, such as writing on a display device, in the sand or in the sky.**

## Space Travel

I was very impressed by this exhibition.

Congrats, and BIG thanks, to all!

It was magical, never imagined to be linked in any way to the magic school bus
