

Magazines prints update. Website only.

It was small priced magazine but, as Scientific contents and Arts techniques, Scientific precious research and results, images, plus gift, great printing company collaboration in San Francisco, I will tonite change the prices (not a big change)

I was not funded since 1 year what means no one single euro was perceived in France.

In first, when I was funded (not by France) I was able to take in my charge some costs.

It's now not possible.

It's for what the changes are necessary on my website.

What's up tonite when I will add this issue.

+ Students : mag paper versions 10% off =)

Update July 9

The tabs Magazines and Involvement are updated on my website.

Linked to that it's an update on this blog post about Office of Astronomy for development.
