Short format video series.

Learning to transmit sensitive data in the context of pedagogical art.

It also refers to the analysis of a scene like the index in the video or of any work like a painting, photo, writing ..) to find there what hides there as details.

This will clip onto my submission for the Educational Psychology and Astronomy for Mental health and Wellbeing Workshop 2022.

This also marks the start of my research for a PhD in Cosmology which is about to begin.

It also rings my hope to link my research to complement the Extraordinary School Project.
