

## **Baby mag prints.**

**Baby magazines are printed and arrived so I will post few pictures (the magazines will delivered by the 28 October)**

It's cool because of two compositions of last year was printed, too.

I print the not-again-printed-issues part by part and by order of a new one because of my budget.

I will enjoy the paper results of first special pictures of a live show and more!

Following my 2018 upside-downed situation what breaks all my plans since two entire years:

I am exhausted but it makes me hope that things will go well since I arrived at the top of the pyramid of justice by finalizing for this stage:)

So all my files since 2014 until today are DONE (in 2014, my departure to NY was blocked by the embassy and I lived in Paris between 2013 and 2020 while I was to be in the USA in 2014)

It was so complicated to do the steps. Geez!

So I really enjoyed to create magazines and it was very powerful.

A suuuuper loved project keeping me up under all the bad bad bad days 😊
