Search for the Gems .

In July + August, it will be some cool add on the magazine for a Special issue.

It will start by May + June:

+ Pdf N ° 71 (2021) Tree (data structure) Tab

There are also two videos for the background.

In dream. As if! Baby underground

Secret diary.

Baby mag May + June (Update 2)

Demonstration The R. Penrose Triangle.

The Penrose triangle, also known as the tripoint or tribar, is an impossible object designed by mathematician Roger Penrose in the 1950s

To go further, by the next mag, I will demonstrate my result.

There is an interconnecting space to grab a free magazine with all customization options included and free shipping.

Such a strange educational content.. this is what it is.

Like the Penrose Triangle, it takes a lot of data to work and the result is a Gem!

Clues + Pdf N° 72 (2021)
